

Sports Physiotherapist position at GWS GIANTS – GIANTS Netball and AFLW

An opportunity has opened up for a sports physiotherapist within our interdisciplinary and integrated Athletic Performance Unit. This position is based at our training base in Sydney Olympic Park.

Working directly with the Senior Coaches of both our Netball and Women's Football programmes as well as the GIANTS Athletic Performance Unit, we are seeking a sports physiotherapist with at least 3 years' experience in a sporting environment to work with our elite squads.

Experience in either or both a netball and football setting will be seen as an advantage. The successful applicant will travel with both squads throughout their respective seasons, and co-ordinate the medical care of our players.

This is a fantastic opportunity for any energetic physiotherapist wanting to work with our elite women's programmes and to drive the establishment of a world-class service. Exceptional clinical reasoning and very good manual skills are a must, along with a strong rehabilitation background.

From a character standpoint, we are seeking a standards-driven and dynamic personality, one who will thrive in our supportive and detail-focused learning environment.

Whilst a part-time position, the role across both programmes will see the weekly hours vary between 10 and 30, dependent on the stage of the season. As such, this role would suit an ambitious physiotherapist who has flexibility in their daily working hours to allow for the fact that the netball programme will train in the mornings and the football team will train in the late afternoons.

This will initially be a 1-year post, with the aim of a contract extension following a successful first season in the role.

If this sounds like the opportunity you've been waiting for, please send a single page (no more) cover letter and CV (no more than 2 pages) to david.joyce@gwsgiants.com.au

Applications close October 4 at 5pm (Sydney time), with an anticipated start date of November 6.

Please note that only applicants who are eligible to work in Australia and who currently have registration to practice as a physiotherapist in Australia will be considered.
