MANDATORY ETSA QUESTIONS

1. Is the application for an additional solar small embedded generator on the same property? YES/NO
2. Does the customer own any other properties in South Australia that have a solar embedded generator connected to it? YES/NO

SA Power Networks approval to connect an SEG strictly relates to the technical compliance and suitability of the proposed equipment to be connected to the Distribution Network.

Approval in no way implies that the application will be eligible to receive a PV Feed-in Rebate or other subsidies from other Government-sponsored schemes that may be applicable from time to time.

THE ABOVE STATEMENT HAS BEEN EXPLAINED TO THE CUSTOMER
